

Bill Furst SARASOTA COUNTY PROPERTY APPRAISER

Application Administrator - Sarasota

A successful candidate for this position administers all aspects of internal and vendor applications. Responsibilities include, but are not limited to, maintaining current operations, deploying new systems, improving internal processes, and support of end user information needs.

Requirements:

- Administer applications using appropriate practices
- Deploy changes into production databases and applications
- Identify and create test and deployment plans as required
- Develop SQL scripts, stored procedures, relational databases, data warehouses, SSIS packages, and reports
- Design and develop interfaces for data exchanges between applications through Extract, Transform, and Load operations using Excel, Access, Text, MS SQL, and others
- Manage database interfaces for internal and external clients
- Support organization data access needs through custom queries and reports
- Maintain vendor applications through upgrades and case management
- Ability to understand and troubleshoot existing internal and vendor applications
- Demonstrate ability to solve complex support and maintenance issues with applications
- Automate, schedule, monitor, and run processing workloads for databases and vendor applications
- Estimate and identify critical paths for assigned tasks
- Document changes, scripts, processes, procedures, and developments
- Provide feedback on evaluations of vendor applications
- Compile end user feedback for issues and requirements in an efficient and courteous manner
- Participate in process improvements and collaborate with others on change

Qualifications:

- Bachelor's Degree in Information Systems, Computer Science, Software Engineering, or related field and 5+ years of combined experience in Information Technology fields
- Strong track record of performing all aspects of application administration
- 4+ years database experience using Microsoft SQL Server including queries and SSIS

Other skills and experience (desired but not required):

- Computer Aided Mass Appraisal (CAMA) system experience (customCAMA)
- Experience with Subversion or similar version control
- Experience with Crystal Reports
- Advanced Professional Certifications
